City of Goodyear to Perform Work in Cordero Starting June 1

On Tuesday, June 1, a consultant from the City of Goodyear will be onsite in the Cordero neighborhood determining the locations of key underground utilities for the City's [Water Main Replacement Project](#). This project includes installation of new infrastructure for the water system and is scheduled to begin in July of 2022.

Next week, engineers will dig several small test holes, which will block one lane of roadway. These holes will then be patched to return the surface to its original condition. The work is expected to be completed in the same week and vehicles and pedestrians will have access to Cordero throughout this portion of the project.

The information gathered during these tests will be used to finalize plans for the pipeline installation next year. For more information, you may contact the city's project manager, Lisa Melton, at Lisa.Melton@goodyearaz.gov.
